### **HR Perm Consultant - West End, London - 35k ote 80k**

HR perm desk recruiting across all sectors, based in the West End. Basic 35k ote 80k.

This is a very successful desk which billed 250k last year and it needs an experienced perm recruiter to look after the existing client base and take on new clients handed to you. This is a red hot desk with little or actually no business development. You would join a team of 7 within an international company that has around 30 staff in London. You would recruit HR professionals within the 30k to 60k salary bracket. This desk has been previously loved and all the clients have multiple vacancies to give to you, the clients are a mix of everything including Professional Services, Media and Financial Services.

It's the dream role for a professional perm recruiter with at least 18 months experience.

You can have experience at recruiting within any perm sector, the team are very close and successful so it's important that you are a team player and have the care factor for your candidates and clients alike.

You will be rewarded with a good basic and commission and work for an internationally established HR brand that also has a good benefits package.
