(MK 411)

### **Consultant / Senior Consultant – Property - London City - Up to £35k plus uncapped commission**

My client has been established for over ten years within the construction and property market and prides themselves on their professional approach and genuine desire to provide a quality service to their clients. They aim to work with a select group of organisations and deliver at a senior level in order to ensure repeat business and the ability to know their client “inside out”. Over 60 of their work are completed in an exclusive or retained search mirroring many search and selection only businesses. They cover all aspects of white-collar professional technical recruitment on the built environment focused on salaries of £50k plus. They have a mature team with an average age in excess of 30 which creates this professional approach. The last 12 months has seen significant success with major growth not only financially but also in staff number and this growth will continue in 2016.

Due to this expansion they are looking to grow their property team as they are currently working at capacity on a number of retained assignments. Covering all aspects of the property management and client side market this is an opportunity to work alongside an experienced top performing recruiter who has billed in excess of £400k this calendar year. You will learn from one of the best in the market with over 10 years experience in the sector who works with the very best clients.

The ideal candidate will have a strong understanding of the property market and have a minimum of three years recruitment experience however we would consider someone from a different professional recruitment sector as long as they are intelligent, well presented and highly motivated to work at the senior end of a market. Ideally the right candidate will have strong headhunting and proactive candidate generation processes as this is a candidate short market. An ability to work with senior level candidates is also essential.

This role is a very exciting opportunity to work within the most buoyant sector in property recruitment with a high flying and well known business. On offer is a fantastic commission scheme of 30% over threshold, great incentives and a professional and skilled recruitment environment.
