Senior HR Perm Consultant - London - £40k basic uncapped commission monthly

HOT desk of clients that has billed over £200k every year, placing senior HR professionals into Commerce and Industry clients, like Media, IT and Telco.

This established desk needs a good perm recruiter to take over the clients and continue to give high levels of quality service.

The consultant who built this desk has moved to another role in the business however would be hands on in you taking this on.

My client is based centrally in London, has 50 consultants and a leading player in the market. People join this business due to the adult culture.

Everyone in the business is given support to develop themselves and become the best recruiter with no hand holding or micro management.

Little or no business development is needed, your client base is ready for you and there are plenty of other clients in the business you could cross over to if you wanted.

This business is a HR specialist only and they are the go to people for these services.

I have worked for them for over 8 years and placed 15 people that are super happy and love it, several that have been developed into managers.

If you are thinking about a move in the HR market or recruit into another specialism and would like to recruit in the market please contact me on 020 3696 1210 cheryl@gsr2r.com
