HR Permanent Consultant - City - £30k - £50k basic depending on experience, commission monthly 20% over 5k!!

A hot desk placing all HR professionals into Retail and FMCG clients has become available at an international company as a consultant is moving in-house.

Great news as this means you would inherit these clients from day one, at current job levels this desk is worth £200k a year to you if you place a small percentage of them.

You will then have the freedom to grow the desk further in any client sector you choose. The HR team are 6 in an office of 45. My client specialises in two other sectors of recruitment giving you the ability to cross sell your HR services into their clients. The company have offices in London and two in Asia, although they are globally 80 people they really have managed to keep a more boutique feel to the business. No KPI's or heavy management, you will just be supported and encouraged to be the best you can be.

I have placed over 15 people in the offices over 12 years and they all stay! It's a great grown up environment that pays 20% over £5k per month commission, and are positive regards to work life balance and people work 9-5pm only.

If you are looking to work in a great business with a positive mature environment please contact me for more information on 020 36961210 or email Cheryl@gsr2r.com
