Recruitment Consultant - Interim Accounting & Finance - London - £45000 + commission

Superb recruitment business based in the West End specialising in recruiting into the Retail & Consumer sectors only.

Clients range from SME's, start ups to large, global multinationals across Retail, FMCG, Ecommerce, Luxury, Lifestyle Brands and Leisure. They have a great reputation in their space and as a result of their success they are looking to hire.

They are looking for an interim Recruiter to recruit qualified Finance & Accounting staff across a wide range of clients. They can offer a warm desk but this is a full 360 role and you will be expected to build it further.

The office is small with 11 staff so cultural fit is important. It is a relaxed, fun and dress down environment where consultants don't take themselves too seriously. They do work hard and are successful. This is not a corporate environment at all, there are no KPI's or call times so you will need to self manage and motivate. Everyone is an experienced recruiter who gets on with the job.

You will be an experienced Interim Recruitment Consultant ideally recruiting Finance & Accounting professionals at qualified level. You will be client facing, confident and able to build professional working relationships.

In return you will receive a competitive salary and commission structure. For further information, please call Louise on 020 3889 1673 or email louise@gsr2r.com
