### **Recruitment Consultant - Finance into Insurance - City - £26000 - £32000 + commission**

Superb opportunity for an Accounting & Finance Recruitment Consultant to join a super successful Insurance recruitment business based in the City. My client is well established, has international offices and an outstanding reputation in the Insurance market.

This is a professional yet entrepreneurial business where everyone is given the tools, training and infrastructure to ensure success. Each consultant has an individual P&L account and you will run your business within the wider business. There is a culture of freedom, high engagement and the will to succeed coupled with an environment of healthy competition. There is an inhouse training programme which is thorough and tailored to the Insurance market providing all staff with robust technical skills. Encouragement and feedback is provided to help everyone maximize their potential.

Due to an internal relocation, they are looking to hire a Recruitment Consultant to work on a hot desk recruiting accounting and finance professionals into the Insurance market. This desk billed over £180k last year with the capacity to do more.

The successful candidate will have recruitment experience ideally recruiting finance professionals. Insurance experience is not necessary, experience recruiting into Financial Services or a technical function would be useful. You will have a proven billing track record, be candidate centric and have excellent communication skills.

This is a super opportunity to work in a lively, positive environment, with experienced people who share a common goal and vision. In return you will receive highly competitive remuneration and rewards including taking part in their equity programme which rewards best performers, regardless of position and level. For further information please call Louise on 020 3889 1673 or email [louise@gsr2r.com](mailto:louise@gsr2r.com)
