Associate Director - Interim Accounting and Finance - West End - £60000 + package

My client is a boutique recruitment consultancy specialising in Accounting and Finance recruitment. Based in the West End, they recruit high calibre Accounting and Finance professionals into temporary, interim, contract and permanent roles across Greater London and the South East. They recruit at non qualified and qualified level and their client base ranges from dynamic start-ups and SMEs through to blue-chip multinationals, leading financial institutions and global professional services firms.

They are looking to hire an experienced, senior level interim Manager to come in as an AD/Director to head up, manage and develop an existing team of 4, growing the team and driving temp growth. This will be an autonomous role but you will have the full support and backing of the business owners in this venture. This is an exciting opportunity to develop the team, shaping the temporary division and having a significant impact on business growth. The potential is huge.

If you have an extensive track record in temporary Accounting and Finance recruitment and experience of leading and building a team, then I'd love to hear from you. My client offers an adult approach and a supporting working environment with low staff turnover. There is a competitive basic salary dependent upon experience and previous performance, guarantees and bonus.

For further information about this exciting opportunity, please call Louise Coxon on 020 3889 1673 or email louise@gsr2r.com
