Recruitment Consultant – Finance into Commerce & Industry - West End - 26000 - 35000 + commission

Recruitment Consultant – Accounting and Finance into Commerce & Industry - Contracts desk

My client is a specialist recruiter of finance, transformation and procurement specialists. Established 15 years and based in the West End, they are a privately owned business with no debt and no outside investment. It is a professional, dynamic and hard working environment but everyone works collaboratively, has fun and the opportunity to thrive in their role.

The business pride themselves on their training programmes which is available to all candidates at all stages of their recruitment career.

Currently they are looking to hire a Recruitment Consultant to join an established team, recruiting accounting and finance candidates at qualified level into a mix of SME and FTSE100 clients across Commerce and Industry.

The brand is established, well known and has a real footprint in their space. It is genuinely a lovely place to work with the potential to make a lot of money. All senior managers bill and lead by example.

If you have at least 18 months experience recruiting Accounting and Finance candidates, a good track record of billings and the confidence to deal with senior level candidates and clients, then I'd love to hear from you. The successful candidate will be ambitious, motivated and commercial with a real desire to develop their career.

In return you will receive an attractive salary, commission structure, ongoing training and further benefits and incentives.
